

## Flood Zone Information

Local flood zone information is located at the Northeast (Aventura) Branch of the Miami-Dade Public Library and at the City of Aventura's Community Development Department. The Community Development Department can provide you with detailed information from the Flood Insurance Rate Maps (FIRM) including:

- Whether your property is located in a Special Flood Hazard Area
- The community number
- The panel number and suffix
- The date of the FIRM's index
- The FIRM zone
- The base flood elevation

For surveyors, architects and engineers, the City has the latest form of elevation certificates available to you for completion.

For lenders, insurance agents and real estate agents, elevation certificates are kept on file for all buildings permitted by the City.

For more information, or to receive a Flood Insurance Rate Map determination for your property, contact the Community Development Department at (305) 466-8940.
